BARRIER FILM WS

Water soluble masking paste

PRODUCT DESCRIPTION

Barrier Film WS provides a dry, white, water based masking media to prevent adhesion of paint overspray to spray booths, floor plates and fittings. Barrier Film WS also provides water soluble barrier coat to ease cleaning and maintenance of contaminated areas without using solvents.
Barrier Film WS is white in colour, water based and dries to give a non-dusty surface.

FEATURES & BENEFITS

- Prevents paint penetration and adhesion – to floors and metal plates.
- Water rinseable – coating may be washed away with water, avoiding the use of solvents.
- Protects against solvent attack.
- Provides dry, absorbent, non dusting surface.
- The coating is entirely water based presenting no fire hazards or storage problems.
- Light reflecting surface improve working conditions.

DIRECTIONS FOR USE

Barrier Film WS is used as supplied and applied in thick layers by use of brush, roller or spray.
The coating will not sag or run.
Removal of the coating is best carried out by pressure washing with water or scraping.
Coverage is approximately 4½ square metres per litre.

SPECIAL STORAGE

Store in a frost free area.
